Key Career Highlights / Notable Work

- **Nothing** - Independently designed & conceptualized a widget experience used by 100k+ users globally, exclusively for Nothing phones. Awarded the Runner-up in the brand's annual community edition project for a marketing campaign.
- **NextCampus** - Led 0 → 1 design for a complex B2B SaaS ERP product used by regional educational institutions. Maintained the design system over multiple versions.
- **Anata, 99support** (NC clients) - Worked with Japanese clients & collaborated with cross functional teams to deliver culturally nuanced software in the B2B2C & D2C domain. *Anata* was an online resume builder, While *99support* was a Japanese job search/recruitment platform. I was the sole designer for these projects.
- **Workin** - Independently led the design for a multi-sided talent acquisition platform connecting recruiters, universities, and candidates. It was a joint collaboration between Indian and Japanese organizations.
- **NextPlatforms -** Designed the branding and the website for a brand new startup.
- **Develearn** - Designed the company's internal management tool and their flagship product for their upcoming company - '*NextCampus*'. Created pitch decks and videos demonstrating an early prototype of the same to potential investors and stakeholders.
- **CMF** - Designed, curated and proposed an entire OS level concept for CMF phones. CMF (Color, Material, Finish) is a sub-brand of the UK tech company - Nothing.
- **NDA Projects** - Led design for a feature-rich fleet management system for a global Tier-1 automotive supplier with 250,000+ employees across 45 countries. Covered two different versions over the course of two years. This project impacted over a million people worldwide across various industries.

Personal Project

- **Rahil's Museum** - Digital repository for archiving and exhibiting design work, telling design stories and other explorations. Building it pixel by pixel in my free time.

What I Can Do For You...

- Lead 0 → 1 design efforts - From branding and identity to designing and curating entire product experiences. I also perform well in a directorial position.
- I only accept work when there is a mutual fit, that way, you know that I will take care of the project like it was my own.
