# RAHIL H.

~ Senior UI Designer ~

https://rahilhstatic.github.io

## Experience

### Develearn Technologies

*Senior UI Designer*                    *11/2021 - Present*

- Hired as an intern for two months, then got promoted twice in a year to a senior role.

- Initially as one of the only designers in the team, created the core designs in the first three months to lay down the foundation of the company's next project - a college ERP called "NextCampus". The subsequent months were spent prototyping and designing new pages for added features while refining/updating the original ones.

- Made video presentations to demonstrate the scope, scale and features of the company's project.

- Designed websites for regional colleges who served as clients to the company.

- Designed the company's official and product websites.

### Freelance

*UI/UX Designer*                    *05/2021 - 11/2021*

- Designed branding deliverables for local outlets.

- Consulted for the design of two websites with the companies based in Belgium & Singapore respectively.
